

CHRISTIAN EDUCATORS ACADEMY

FEBRUARY NEWSLETTER

Transcripts and Report Cards

All Transcripts and report cards have been mailed for 1st semester. If your child received an INC (incomplete) don't worry, they are still able to finish the semester and earn a semester grade without penalty. Remember, if you do not start second semester classes by March, you may be completing courses over the SUMMER!

Apex gives you a calendar and a Grade-to-Date assignment list. I cannot stress how critical this assignment sheet is, in helping you stay on track. It will tell you when a specific assignment is due, and what assignments are graded.

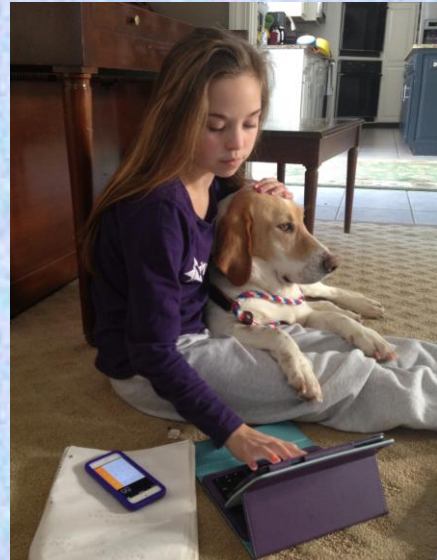

Gradpoint also provides a calendar and a schedule. It is very important to not only stay on track, but to complete all assignments in the order assigned. Skipped assignments may be assigned a ZERO, lowering your total grade to date.

ALL students, both Gradpoint and Apex, should be working 20 hours a week: logging in and completing assignments in all courses.

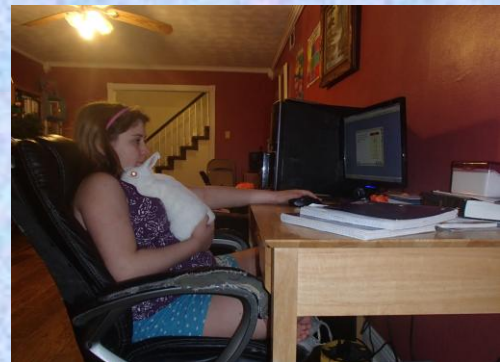

Terra Nova Testing

All standardized tests have been ordered for 3rd, 5th and 8th grade students. Please watch for the tests by the end of February. Testing dates are scheduled for the last week in March, 2015.

In January, we asked students in all grades to send creative photos of themselves completing online classes. Here are the winners!

**First place Junior High
Studying with her best friend**

**Second place Junior High
"hopping" to work online**

In January, we asked students in all grades to send creative photos of themselves completing online classes. Here are the winners!

**First Place High School winner
Online inbetween ski runs!**

**Second Place High School
Running while studying for a test!~**

Tie for 2nd place - math can be 3 sheets to the wind!

In March, CEA will set up the annual "Survey" required by our Accreditation. We will ask all students and parents to complete the survey. In addition, we ask that everyone write a personal testimony, or short paragraph on how you like CEA or how we are helping you meet your education goals. Look for it in the March issue!
